

ART CHALLENGE (Week of 1st March, 2021)

Can you see how this picture is made up of many, many smaller pictures?

What did they do to make the pictures interesting instead of using colour?

Look closely at one of the pictures - can you see any interesting patterns, lines, squiggles, shapes?

Use the blank grid on the next page to try your own.
You can use pencil, or black pen, or black felt-tip (or a combination of each!)
